Welcome!

Commerce, as the saying goes, brings change. It is the shortest conceivable phrase for how modern retail marketing works today: oriented towards constantly changing requirements for product ranges, products and trends, all market participants must constantly drive about change. Innovation, novelty, next generation are the buzzwords for the most part.

Before we provide you – our dear retail partners – the right impetus for successful business with the current 2019 KORONA product range, we would like to promise you: it is the good qualities of an honest businessman that guide our business and are the basis of all our decisions. In an increasingly unstable and ever-changing world, our greatest promise is that reliability, transparency, trust, sustainability are our best offerings to you.

We remain your experienced and reliable partner! You can trust our advice!

As you browse through this catalogue, you will of course quickly notice that apart from the well-known classics, a large number of new products have been added to round off and further enhance the product range:
- Coffee To Go – the popular ‘reusable’ option ...
- Barbecue Grills XXL – celebrate the 2018 super summer again ...
- Retro – state-of-the-art products in the celebrated style of the 60s ...
- Fitnesswelle – these waves don’t stand a chance against KORONA scales!

With us, you will find the right products for the success of your retail business, and that’s a promise.

In the sense of ‘commerce brings change’, we wish you: much success!

To a successful partnership!
Your truly,
KORONA Team

Accurate to the gram!

The success of a baking recipe depends not only on the cook’s qualities but also on reliable and precise weighing. You can do that with KORONA kitchen scales – accurate to the gram. In addition to the classic kitchen scales, the range also includes scales with matching weighing pans. There is a wide choice – be it plain, coloured, round or rectangular. This is where everyone will find their handy kitchen helper.

Healthy and kicking!

Fitness and health are becoming increasingly important. In addition to regular exercise and a conscious diet, weight control also plays an important role. In addition to displaying weight, KORONA diagnostic scales analyse body fat and water as well as muscle percentage, providing even more information – making it easy to stay fit.

Mona
