A desire for design, a desire for functionality, a desire for pleasure – these are the requirements now shaping consumers’ purchasing decisions. And they have become much more demanding. Does the toaster add the right aesthetic accent and provide great toasting results? Does it match the other kitchen aids? What intelligent features do domestic appliances have? How sustainable are they? And how well do they cope with everyday use?

As we develop the KORONA range year on year, we always remain clearly focused on the varied high demands of our end consumers. We develop new products and ranges in line with the latest trends. And in doing so, we always ensure practical usage, consistent design and good value for money.

That is also our promise to you as a retail partner: our experience and love of innovation drive us every day to create good looking and functional devices with added value – and to therefore meet your customers’ high expectations. As a reliable partner for whom the success of your business really does matter, you can trust our products and services. Whether they are classics or newcomers.

Immerse yourself in the world of KORONA, take a look at our 2020/21 range for yourself and feel inspired by our unique recommendations and innovations.

Here’s to a successful year of business together!

Your
KORONA team

Small, but powerful

Are you really going to switch the coffee machine on for just one coffee? Of course! KORONA offers small format, low volume domestic appliances to meet the highest demands. They are economical, space-saving and powerful – and are therefore ideal for those who live alone and those little moments of pleasure throughout the day.

Hot colour

Just boiling water is old news. As the water heats up, the message “HOT” appears on the otherwise black kettle in a series of bright colours. So you can see clearly when the water has reached boiling point. As soon as the water cools down again, the message disappears. A real eye-catcher that brings plenty of colour to your kitchen.

Summer has plenty of delights to offer, but can certainly get you hot under the collar, too. The hot midday sun, the humidity of evening storms and cool nights out camping. When the temperatures push us to our limits in terms of comfort, it is not always easy to keep a cool head. Mobile air-conditioning units and fans from KORONA keep things comfortable and help you stay fresh. Quiet and continuously adjustable via remote control, the air-conditioning units dehumidify, cool and ventilate, heat the air or enrich it with fresh air. Depending on the room size and your requirements, you can choose between two different devices with different outputs that can be adapted individually to your needs. Fans are available in all practical sizes and designs. Whether you are looking for a space-saving desk fan or a high-quality floor fan to provide a fresh breeze even in the largest of rooms, the new product group from Korona ticks every box. Highly efficient motors, energy-saving operation and environmentally friendly coolant also make a contribution to environmental protection. Ideal as the hot option for cooling down.

Little weighing aids

The best recipe is useless if the ingredients are not right. Both the quality and the quantity of what goes into them are essential for delicious results. With the KORONA kitchen scales, food can be weighed out to the last gram and measured carefully. From elegant to cheerful in design, from retro to pop – with or without a weighing and mixing bowl: we have the right scales for all tastes and requirements here.

Full of energy, completely in balance

It doesn’t take much to keep fit and healthy: a balanced diet and regular exercise in the fresh air are the most important factors. Weight control serves as a good indicator. KORONA personal scales help to analyse precisely how your weight changes. Diagnostic scales also check important parameters such as the proportions of fat, water and muscle in the body. So it’s very easy to achieve your perfect balance.
